ADrive Launches New Desktop Application for Simpler Backups

EMERYVILLE, Calif.--(BUSINESS WIRE)--ADrive™, the only company offering 50GB of free online storage, today officially released ADrive Desktop, a desktop client designed to simplify backup and recovery tasks for its customers. Developed in Adobe AIR, ADrive Desktop is compatible with all major operating systems and allows a customer to upload, download, and schedule jobs to backup files and folders directly from their computer to their ADrive account.

ADrive Desktop, ADrive's File Transfer Protocol (FTP) access and ADrive's user-friendly web interface combine to offer a complete solution for data backup with access from anywhere in the world. ADrive Desktop is available to Signature and Premium customers through their existing accounts. New users and Basic account holders can try this new service by signing up for a free, 14-Day trial account.

Upcoming features to soon be officially released by ADrive include: a single-computer, backup-only client with unlimited storage for \$3.95/month; a mobile device application; collaboration solutions for businesses and other groups; an image gallery for viewing photos online; a media player; folder sharing capabilities and much more.

To learn more about ADrive's new features, storage plans and trial accounts, please visit www.adrive.com.

Availability and Pricing:

ADrive Desktop is available with all Signature and Premium storage plans, starting at \$6.95/month, and are available at www.adrive.com. ADrive Signature and Premium plans now come with a free, 14-Day trial period allowing users to test out the full functionality of the ADrive web interface, FTP and ADrive Desktop prior to purchase.

About ADrive

ADrive leads the online data storage and backup industry by offering the largest amount of free storage and backup on the Internet. ADrive also offers a suite of enhanced features and provides services to enterprise customers to help protect their business' valuable data.

ADrive offers complete and secure solutions to store, backup, share, access, and edit files from virtually anywhere, at any time. Founded in 2007 by veterans of the storage and networking industry, ADrive was created to meet the demands of our data-intensive world.

All trademarks are the property of their respective owners.
